

FLEXCurtain HD is a flexible LED wall similar to the traditional LED panels that you see at concerts and events. The FLEXCurtain HD, however, offers a variety of advantages over the competition. Where the competition's LED panels are heavy, PixelFLEX LED curtains are ultralight; LED Walls from PixelFLEX weigh 60% to 90% less than other large LED screen options.

- **HD Series Available in 4, 6, 7, 9, and 12.5 mm**
- **Lightweight and Flexible LED screen allows for quick and easy setup**
- **CUSTOM SIZES: We offer a wide range of sizes to meet your display needs**
- **Our screens support any DVI-D source for sending photos and video**
