

FLEXUltra XT

DESIGNED TO MOVE FORWARD

FLEXUltra XT LED video displays combine extreme performance and durability into a single panel designed for rental staging. Numerous pixel pitch offerings allow you to showcase stunning Ultra HD content. Front serviceable modules make it easy to keep this panel looking good, all the time.

Each panel is conveniently designed in a perfect 16:9 ratio, with unparalleled protection from our impact resistant COB PixelShield™ technology to withstand the high demands of the production world. Easy Z-Axis adjustments guarantee that your screen is always seamless.

PRODUCT FEATURES

ULTRA HIGH-RES PITCH

Resolution is key in close-proximity production activations. The FLEXUltra XT pitch is one of the highest resolution displays in the production industry.

GROUND SUPPORT

All-in-one ground support system includes integrated panel connection points for quicker and safer deployment.

REMOVE SEAMS

Easily adjust on the Z axis to quickly remove any seams from your LED wall display.

ADDED PROTECTIVE COATING

PixelShield™ true COB technology offers industry leading impact and scratch resistance to your FLEXUltra XT fine pixel pitch display modules.
