

FLEXStorm

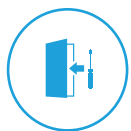

THE INDUSTRY'S MOST COMPREHENSIVE SINGULAR OUTDOOR LED PRODUCT LINE

Rated to withstand the most extreme weather conditions while offering 20% higher brightness than any other LED on the market, FLEXStorm is designed to drive value and engineered to last.

FLEXSTORM IS THE FIRST OF ITS KIND LED DISPLAY, DESIGNED TO MEET THE HARSH DEMANDS OF OUTDOOR VIDEO DISPLAYS AND OFFERING BOTH 4:3 AND 16:9 SCALING RATIOS, MAKING IT THE MOST COMPREHENSIVE OPTION AVAILABLE.

ADVANTAGE

FRONT SERVICEABLE

FLEXIBLE DISPLAY OPTIONS

HIGH BRIGHTNESS

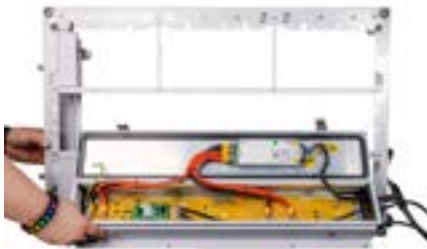

IP-65 WEATHER RATING

PRODUCT FEATURES

WITHSTAND ANY WEATHER WITH BRIGHTER THAN EVER LED

FLEXStorm's high resolution, signature brightness, and clear visibility even in direct sunlight make it the perfect solution for outdoor displays. Designed to overcome the challenges of traditional outdoor LED displays, FLEXStorm uses intelligent, auto-correcting light sensor controls to ensure perfect visibility all day long.

FRONT OR REAR SERVICEABILITY

Each cabinet's electronic and data control is easily accessible from both the front and rear of the display, giving you more freedom for installations and enabling easy on-site maintenance.

CREATIVITY UNBOUND

As one of the only outdoor LED products on the market able to create 90-degree angles without additional products, FLEXStorm can bend to create any design you can dream of—making the possibilities endless.

IMPENETRABLE DESIGN

The FLEXStorm's IP-65 rating guarantees ironclad protection against rain, snow, sleet, wind, dust, and whatever else mother nature throws your way.
